We Thrive on Innovation • We Value Community • Learning is Fun! • We Promote Well-Being

**Week 4: Olympic Games
(Half Day Option)**
Summer Olympics has arrived at Innovation Learning! Students will showcase their skills and work together to reach for the gold medal!

Week 8: Space Exploration
Students will learn how we get to space, how we study space, and how to engage in space exploration.

Join us for fun this summer as we explore new adventures each week!

Week 1: Burst into Summer!
This week is all about team building, social development, and things that explode! We want students to start their summer with confidence.

**Week 2: Let it Grow!
(Half Day Option)**
Students will immerse themselves in the cycle of nature by working with plants.

**Week 3: Film Festival
(Half Day Option)**
We are all artists with a vision of the world! Students will be able to express themselves through the art of film.

**Week 5: Around the World
(Half Day Option)**
Students will learn different cultures to understanding inclusivity and representation of different beliefs and values.

Week 6: H2O
Learn about the ecosystems in saltwater and freshwater environments and the animals that call those places home.

Week 7: The MicroVerse
There's so much in this world that we can't see, and we want to learn about it. Students will engage in hands-on activities utilizing the engineering design process.

Week 9: Superhero Week
Fly into a week filled with super activities to help practice communication, collaboration, and creativity.

Week 10: Summer Safari
Students will explore the vast ecosystem of the earth's jungles, the animals that live there, and the adventures that can only be found in the jungle.

Week 11: Carnival
Students will celebrate the end of summer by creating innovative carnival games and families will join us as we play together on our last day.
